

# THINGS TO CONSIDER:

## *With Market Volatility*

### WAYS TO TURN LEMONS INTO LEMONADE

Times of market volatility can be very troubling for investors, but many opportunities can be taken advantage of in this environment. This is a time when we need to avoid making hasty decisions based on emotions and make decisions that are going to benefit your financial situation in the long run.

# THINGS TO CONSIDER: MARKET VOLATILITY

- 1 Consider Roth conversions while the market is pulled back. Effectively a 20% reduction in taxes today rather than doing at the market top.
- 2 Capture or harvest losses to use against future gains and you can deduct \$3,000 of capital loss above your gains every year. The higher your tax bracket the more this is worth.
- 3 Reposition weak holdings in to stronger areas. Every crisis creates opportunities for investments but also future changes for economic growth.
- 4 Fund your Roth contributions now.
- 5 Fund your IRA contributions now.
- 6 Use losses to move to lower expense investments like ETF's.
- 7 Great time to gift securities to your children but not your charities.

## YOUR NEXT STEPS
